EDUCATION

Fundamental Mathematics and Mechanics

Lomonosov Moscow State University

September 2018 – June 2023 Moscow, Russia

- GPA 4.49/5.00
- Department of Higher Geometry and Topology

Ozonmasters

2020 – 2022

WORK EXPERIENCE

Data Scientist

Beeline

June 2022 – Ongoing Moscow

- Solving a business problem using machine learning
- Ad-hoc analytics
- Decomposition of processes in a company to find a machine learning applications

SKILLS

Python	● ● ● ● ●
C++	● ● ● ● ●
SQL	● ● ● ● ●
ML Algorithms	● ● ● ● ●
PySpark	● ● ● ● ●
Linear algebra	● ● ● ● ●

LANGUAGES

English, intermediate

Russian, native

PROJECTS

Acceptance metric

August 2021

- We designed an acceptance metric for the site sirius.online and tested it against historical data.

Hack the cart hackathon

March 2022

- Won second place by developing a two-level recommender system. The task was to predict what products the user of the online store would buy.

Acceptance metric

August 2022

- 4th place in NLP competition. The task was to determine among messages from the Internet (twitter-like domain) whether there is information in it that some service has fallen (an analogue of the downdetector.com that left Russia). Solution used embeddings from Deep-pavlov, heuristics, sentence embeddings on Ruberta and catboost with its new ability to use embeddings as features.

ACHIEVEMENTS

- Diploma of the Olympiad "Ya profesional" 2020 in mathematics
- Some diplomas of the Faculty of Mechanics and Mathematics olympiads
